Memo.

In Para 2 of the Proceedings dated 15th March 1888, the Municipal Board at Chettaldroog recommended the re-imposition of the Octroi duty on the 12 articles noted in the margin, estimated to yield Rs 800 per annum on the ground that the Municipal revenue suffered considerably so much so that Rs 400 were borrowed from the funds of the Davengere Municipality to meet Police, Conservancy and other establishment charges, and that deficit seemed unavoidable in spite of reductions effected in the establishments. The Dy Com was told, in reply that as the tax was abolished in accordance with the repeated recommendations made by the Municipal Board, the Deman would not

not sanction its pre-imposition, and before considering the question of additional taxation, the Dy Comr was requested to submit details of the house and Moharfa taxes and to take steps for the development of the present sources of Municipal revenue including Miscellaneous items such as Sale of manure & of grass &c.

The Dy Comr submits × a statement of Moharfa revenue, from which it would appear that no increase can be expected from this source. The estimated receipts under all heads for the current year amount to Rs 4180 or Rs 45 more than the past year, exclusive of the opening balance of Rs 1589. Out of this a sum of Rs 3180 — or Rs 2870 are proposed to be spent on Conservancy, Police and other usual establishments —

It may be necessary to submit here that when the Municipal Board at Chittaldroog + recommended that Octroi on small items might be abolished and that the Municipality might be relieved of the Police charges, the abolition of the tax was approved and the Dy Com was told + that the whole of Mohaturfa revenue had been transferred to the Municipality on condition of its bearing Police charges, which is independent of Octroi.

of tolls into the town, Octroi on small items being abolished, is now pending final orders from thes office.

Considering the ~~poverty of the~~ poverty of the Municipality, it is a question for consideration whether Tolls may not be introduced into the town of Chittaldroog, should the Govt be disposed to adhere to its former order declining to sanction the re-imposition of Octroi duty in the town.

A statement prepared by Ramakrishna Rao, shewing receipts from "Octroi" from 1879-80 to 1886-87 is submitted herewith, but it cannot be gathered from the figures given therein whether "Octroi" includes only the 12 items referred to in the memo, or any other heads besides. If permitted, I will call for the information from the Local Fund Dept of our Office who have got all the statistics with them, as also the papers connected with the Shimoga Munl Board's proposal in re the relief of Police charges & the introduction of tolls &c.

Memo.

In submitting herewith the Proceedings of the Chetaldroog Municipal Board of 17 November last I beg leave to invite attention to para 3 of Resolution VI. In this para the Board observe that the present system of levying octroi on articles of consumption imported into the town causes great inconvenience and needless annoyance to Traders as well as the Town people The Board resolve to move the Govt to abolish octroi and to relieve the Municipality of the burden of the Police charges

3. The Municipality levies octroi on the following articles

	Estimate of Revenue
Jaggery & Sugar	126
Butter and Ghee	108
Cocoanuts green and dry	37
Betel leaves	190
Oil and oil Seeds.	80
Timber	5.

Tobacco 50
Piecegoods 1300

Petals 190-

3. The actual Receipts from octroi and other Sources of Revenue as well as the ~~estimated~~ actual charges incurred under the several heads of Expenditure during the past five years in the town of Chitaldroog are shown in the subjoined statement. It will be seen that the average Receipts from octroi amount to Rs. 1976 and the average Expenditure on account of Collection Rs 336: the average cost of the Police being 1534.

4 The arrangement by which the Octroi Head Queries in Municipalities bear the cost of their Police is a general one. It may not be very convenient to disturb this in the single case of the town of Chitaldroog

6. The number of articles taxed in the town of Chetaldroog is large; this seems to be the real cause of complaint against the Octroi in that town. The Municipal Board might with advantage be directed to revise the system of levying the tax, with a view

to retain it on a few productive articles abolishing it on other articles which will yield but little and to provide ~~effectually~~ as far as possible means to guard against Smuggling.

7. The other Resolutions in the Proceedings appear to call for no remarks.

Memo

Sir,

In Para 3 of the Pro of the Chettaldroog Municipal Board 07/7/6/89 received with the Dy Comrs Docket no 106/99 of the same date, a proposal is made to levy a tax of one anna on every sheep and goat slaughtered in the town as is the case in Tumkur and elsewhere.

I beg leave to point out here that the item "Sheep and Goats" now proposed to be brought under taxation is one of the 12 items, on which the Dewan declined to sanction the re-imposition of duty in Para 3 of Pro no 3074-86/88 07/1/87/88.

Submitted for orders with file of papers regarding the the abolition of octroi and introduction of Tolls into Chettaldroog.

Are not the sheep and goat taxed in other Municipalities? what? How much is the yield?

Sir

In reply to the Chief Secretary's query on Chellakere D.O. Comrs etc 187/170 dated 9 August 1889, I respectfully beg to append a statement showing the names of Municipalities authorized to levy duty on Sheep and goats together with rate, and the estimated revenue.

Deputy Commissioners
Chitaldroog District
Dated 9th March 888.

From

The Deputy Commissioner
Chitaldroog District

To

The Chief Secretary
to the Dewan of Mysore

Sir,

I have the honor to submit herewith the Proceedings of the meeting of the Municipal Board of the Town of Chitaldroog held on the 15th instant, from which it will be seen that the members present, 10 in number, have unanimously passed a resolution abo-
-lishing the renewal of the practice of levying octroi duties on certain articles of consumption and animals of slaughter imported for sale into the Municipality.

2. The octroi duties were abolished

in the Town of Chitaldroog under orders
conveyed in Devano Proceedings
No. 3042-7/99 dated 27th August 1885, retaining
the same however on Piece goods of Indian
manufacture and those imported by Sea
Although I am very reluctant to recommend
the reimposition of the duties once abolished,
yet the straightened, nay, the impoverished
condition of the Municipality of the Chitaldroog
Town brought about by the circumstances
mentioned in the Board's Proceedings above
referred to, render the adoption of the proposed
measure quite inevitable.

3. The financial condition and prospects
of this Municipality are singularly un-
-favourable. The amount at its credit
at present is only Rs 1055-0-0. The whole
of the Mohaturfa tax for the year 1887/88
has already been collected, except a trifling
sum of Rupees 60. The Chief source of
income to the Municipality till December
1888 is the octroi duty on Piece goods, which

will, it is feared, be comparatively less than in the previous Years, owing to decreased importation as stated in the said Proceedings. The average monthly expenditure on account of establishments &c is Rupees 300, and judging from the cash balance in hand it is clear that the Municipality will lack funds to meet the cost of the Town Police and Conservancy establishment from July next, unless in the meantime some additional source of income is very promptly secured to it. Even the annual repairs to roads which are very necessary cannot be carried out for want of funds. While such is the case with necessary Charges, it is not possible to carry out any works for the improvement of the Town. The existing Municipal establishments are not susceptible of any reductions other than what was effected in the Conservancy Department in November 1887, as directed in Dewans Proceedings No. 3185-97/40 of the 31st August 87

4. An attempt has been made to secure a fresh source of Municipal Revenue from Arrack, as suggested in Revenue Proceedings No. 1221-9/30 dated 1st May 1886, but it is too soon to expect the benefit thereof. About a hundred grafted Mango plants have been planted in sites selected within the Municipal limits and I am glad to state that they are in a thriving condition. But it will be 3 or 4 years before they come to bearing and can contribute towards the Municipal Revenue.

5. There appears to me to be only two sources open for augmenting the income of the Municipality. One is the introduction of the old system of levying Octroi duties on certain articles brought into the Municipality for sale, as was the case prior to August 1885; and the other, the abolition of the Town Police. The latter measure is not feasible. If the Town

Police

Police be abolished the Municipality will
receive only the Moiety of the Mohaturfa Tax
and now it receives the whole of the Mohaturfa
Tax on the express understanding that the Municipal-
-ity will bear the cost of the Town Police. The
abolition of the Force would therefore, prove
disadvantageous to the interests of the Municipality
The alternative course of levying octroi duties
is then the only way in which the object in view
can be attained. Although these duties have
been abolished in several of the minor Municip-
-alities in the Province, yet they continue, it is
believed, to be levied in the Municipalities
of Mysore, Nagar, Shimoga and Kadoor.

Under the circumstances detailed
above, I feel constrained to state that it is very
necessary that Octroi duties should be levied
in the Chitaldroog Municipality, at least until
some other means of developing its resources
are secured and I accordingly strongly recommend
that the Dewan may be pleased to accord sanc-
-tion to the Boards resolution to levy Octroi
duties from 1st April 1888 on the articles
and animals enumerated in the list
embodied in the Proceedings.

I have the honor to be

The monthly accounts from July '87 to February '88 have been examined and passed.

2. The Budget estimates of receipt and expenditure for the year as well as the accounts from the beginning of the year up to date have been closely examined and it was observed that the Municipal Revenue has fallen considerably so much so that there will be no funds for keeping the Town Police and Conservancy establishments till December next when Municipal collection commences. In December last Rs. 2 00 were borrowed from the Darjeeling Municipality to meet the cost of establishments. There is now only Rs. 1055 at the credit of the Municipality and it will last only for 3 months i.e till June next at the rate of 300 Rupees a month on account of the average cost of establishments and it is feared that there will be a great deficit in the estimated duty on Rice, Cords

which is almost the only item of revenue
to be collected till December next. This
Straightened state of affairs will render
it next to impossible to keep up the Munici-
pality. On reviewing the Municipal
Budgets of this district for 1887-88 in August
last the Dewan was pleased to observe that
the reduction of the closing balance for the
year 1887-88 to Rupees 172 was not satisfactory
and that arrangements should be made
to reduce if possible the establishment
and to develope the sources of the Municipal
Revenue. In accordance with the above
order one Conservancy Cart at Rs: 14 a
month and one garden Coon at Rs: 5 were
reduced in november last and still the
deficit seems unavoidable This appears
to be in consequence of several Marwady
Shops in the Town not having imported
Piece goods on a large scale as they used
to do before. It was therefore proposed and
unanimously carried by all the members
present that the octroi duties which were

Sir,

Adverting to the Dewan's Proceedings No: $\frac{3674-86.}{\text{Cir } 88.}$ of the 1st August last (received here on the 4th Instant) sanctioning the Budget Estimates of the Municipalities in this District for the year 1888-89, I have the honour to submit the following answers to the queries therein put. —

2. Para 2 of the Proceedings. — As detailed in this office letter No: $\frac{335}{314}$ dated 4th October 188 the Water cess referred to is the tax

tax is on the branch water taken to irrigate certain fields. The branch being within municipal limits, the Municipality has been levying tax on the water taken from it since 1886-87 in accordance with the Municipal resolution of the 12th August 1886, a copy of which was forwarded with this office No. 255-9/169 dated 18th August 1886. Out of the demand of Rs 47-2-6 for 1886-87 under this item only Rs 4-4-0 was collected in that year. The balance of Rs 42-14-6 together with the demand for 1887-88 was recovered and credited in the accounts for 1887-88.

3. Para 3 of the Proceedings. A statement showing the details of House and Profession Taxes prepared in the form given to

is herewith submitted.

The octri duty on cloth is collected by the Municipal Moolsaddy. Either the Taluk Shirustedar or the Taluk Head Gumasta is present at the time of unpacking and assesses the duty. The Amildar occasionally checks their work.

The sale proceeds of sites for houses, manure, fort-stones &c as also the receipts from the cattle pound and the realizations on account of amarayi are now duly credited to the Municipal accounts. There are further 2 groves of graft-mango trees and 4 Municipal gardens at chilaldroog. The revenue from the mango groves will be considerable when the trees come to bear.

4. Para 4 of the Proceedings.- There are no provincial roads within the Municipal limits excepting only a short bit of about half a furlong at Chital-droog, and # similar bits in one or two out-lying Municipals and this accounts for no provision being made in the budget on account of provincial roads.-

The short bits referred to are managed by the Public Works officers.-

5. Para 8 of the Proceedings.- A police force of one duffedar and five constables has been entertained for the town of Harihar. The townsmen contribute Rs 500—-—- every year for its ——————— up keep. This matter has already

already been reported in this office letter No: 227/212 dated 12th October 87.-

6. Para 10 of the Proceedings.- The Senior Surgeon has already sent a native midwife by name Dasamma. She has been working here since the commencement of this year. The result of her work will be duly noted in the annual Report.

1. The accounts for May 1889 were read and passed.

2.- Read the account of births and deaths. While there were 7 births (3 males and 4 females) there were

9 deaths (2 males and 7 females).
The deaths were generally from
fevers.

3. — Read report No. 57 of
the 27th May 1889 from the Amildar
of Chitaldrug suggesting that
as in Tumkur and elsewhere a
tax of one anna per head of
sheep and goat slaughtered
in the Town be levied as the
Municipality is very poor and
hardly able to effect any improve-
-ment.

Of the 8 members present three
(Messrs: Appama, Raghavendra
Rao and Isak Sahéb) are
against the levy, while the re-
-maining 5 strongly advocate
it as a matter of necessity
notwithstanding that the
Government have in their

Deputy Commissioner
Chitaldroog Distt.

The question involved being the imposition of a new tax, send this to the Dewan for disposal.

I do not like increasing taxation unless we can show the necessity for funds.

Ascertain the present taxation in the municipalities. What? How much is the yield?

Bangalore city levies license fees of 1 3/4 1/2 an. per head slaughtered in the morning or evening respectively

---

1. The accounts for July 1889 were read and passed.—

2. The Mortuary return for July 1889 was read. Out of 9 births, 3 were males and 6 females— and out of 12 deaths 6 were males and 6 females; the more general cause of death being fever.

3. Read Government Proceedings No. 2972-3/72 of the 19th July Calling for certain information to enable it to pass orders on the proposal of the Board to levy, as elsewhere, a tax of

one anna on every sheep and goat slaughtered within the Municipality to improve its resources which are at present very straitened.

Considered the statement of receipts and Expenditure for the past five years.— The receipts and Expenditure were as follow :—

in.	Receipts.	Expenditure.
1884/5 ——	45-52-4-10	4261-7-1
1885/6 ——	3519-14-11	5382-8-6
1886/7 ——	3916-4-5	4094-12-10.
1887/8 ——	4263-2-6.	4211-12-3.
1888/9 ——	4847-6-1	3693-7-10.
Total.	21,098-12-9.	21,644-0-6.

It will be seen from the above figures that the Expenditure exceeded the income and it was once found necessary to borrow some amount for current expenses. There is thus no means of improving the Sanitation of the Town by providing it with latrines, drains & improving the sources of water supply. In the current year not more than Rs 310 can be appropriated for these purposes viz.

viz, Rs. 150 for repairs to roads, Rs. 60 for improving the sources of water supply and Rs. 100 for other original Works. By the proposed levy, Rs 15 may be expected monthly Calculating that eight sheep will be slaughtered daily. This will be Rs. 180 per annum and that sum may be usefully spent in constructing latrines, drains &c. Consequently all the 8 members present recommend the imposition of the tax the only dissentient being Mr. Appamachetty.

4. In the last meeting some information was called for by the Board as to how the Municipality got possession of the garden near the district office in order to enable it to dispose of it as it was not in a position to maintain it in addition to two other gardens.

Read the Chitaldroog Amildar's Ittilla No. 120 of the 30th July 1889 fully reporting on the matter.

As the Municipality has power to dispose of its right of holding and as it cannot manage the garden resolved that it be sold by public auction, the well in it which is close to a high road being excluded and reserved for public use.
